GREENFIELD PARTNERS

Greenfield Partners is a private investment capital firm that seeks the acquisition of manufacturing, financial, consumer and industry service companies. We focus primarily on companies with revenues between \$1,000,000 and \$25,000,000, with good sales growth potential. These companies may be in any industry, located anywhere in the Midwest and do not have to be profitable.

We also offer asset based lending and mezzanine financing.

Because we believe competent management is a vital quality of any successful business, we value it highly in our evaluation of a prospective acquisition. Proven managers who are in place and willing to stay for a reasonable period will be invited to join us as equity participants in the acquiring entity.

Greenfield Partners will treat as confidential all information received on a potential acquisition candidate.

Greenfield Partners pays customary fees to intermediaries who introduce us to transactions which are completed.

THE OPPORTUNITY AND EXPERIENCE WE OFFER

At Greenfield Partners our management team has extensive experience acquiring and/or financing small and medium-sized companies. Our collective experience in mergers, acquisitions and disposition has prepared us to respond quickly when an acquisition opportunity is presented to us. Our internal resources personnel enable us to complete an analysis expeditiously and to structure and complete a transaction. We have the insight, energy and resources necessary to build and expand our portfolio companies.

Together with a company's key managers, we function principally as part of an active board of directors. We have had extensive experience in operational management in manufacturing companies, finance, financial analysis, engineering, and merger and acquisition planning and analysis. Quality, cost control, management of product and market complexities, multi-national competition, technology, management, and organization structure are challenges we have successfully met in our broad range of entrepreneurial businesses.

In our portfolio companies, we expect to assist in strategic planning, monitor progress towards the company's goals and objectives, and provide capital for internal and acquisitive growth. We are not merely financial engineers making acquisitions "by the numbers." If needed, we can back up our capital commitment with our financial and operational experience. But our intention is for management to operate autonomously.

If you have any acquisition candidates please contact me at the numbers listed below.
